

SEEKING GULF WAR VETERANS

for a Research Study on Gulf War Illness (GWI)

Who do we need?

We are looking for men and women who were deployed to the Gulf War in 1990-1991.

Purpose of the Study:

To test if daily consumption of Concord Grape Juice can improve the fatigue and difficulty thinking experienced by some Gulf War Veterans.

Participation:

Participation would involve nine visits over a six month period. Participants will receive monetary compensation upon the completion of each visit.

Location:

War Related Illness and Injury Study Center
VA New Jersey Health Care System
385 Tremont Avenue, 11th floor
East Orange, New Jersey 07018
PI: Dr. Drew Helmer

DVA NJHCS IRB
SEPT 12 2016
APPROVED

Please call the War Related Illness & Injury Study Center
and ask for the *Grape Juice Study*.
